ENGINEERS' REPORT OF FIRE DEPARTMENT

In submitting this report of the Fire Department for the year ending December 31, 1936, we are glad to report that there has not been a large amount of property destroyed by fire. There were three buildings involved, which were total losses, and one set of buildings quite badly damaged. One life was lost in the fire at Georges Mills which destroyed a summer cottage, which was a very sad accident.

During the year, there was a motor hook and ladder truck installed at the central station, which was needed very much.

We were very lucky in not having any brush fires during the year; one call from out of town and a small one at Georges Mills, with no damage.

The Department is well equipped at the present time, with the exception of hose, and we are in hopes of being able to purchase a few hundred feet soon.

Alarms for the year—Six bell alarms, twenty-two stills and four out of town calls.

Property damage, \$5,000.00; insurance, \$3,550.00.

We wish to thank the taxpayers of the town for the generous financial support and the members of the Department for their cooperation and interest taken.

Respectfully submitted,

F. M. SARGENT,
H. A. TROW,
C. L. MORGAN,
B. M. HOLMES,

Engineers.

REPORT OF BOARD OF HEALTH

Only one disease, and that of scarlet fever, required quarantine during 1936. This case was well cared for, home fumigated and no bad results followed. Twelve analyses of our town water supply have been made by the State Board of Health during the year and every analysis has proven good. For the better protection of our public water supply, I am sure a good argument could be made to secure P. W. A. funds to sewer Lake Avenue and Garnet Street to the river, also to lay a sewer line from a point near Walter P. Wiggins' to the river. While this assistance can be had, why not get it?

The Public Health Nursing Division of the New Hampshire State Board of Health reports the following statistics of work done in this community in 1936: Child health clinics held 1, attendance 67, number defects found 123, number defects found corrected 9; number diphtheria immunization clinics held 1, number children receiving treatment 15; number times state nurses visited town 9.

Respectfully submitted,

ALBERT D. FELCH, Health Officer.

REPORT OF
SCHOOL DISTRICT

SUPERINTENDENT'S REPORT

To the Sunapee School Board:

I herewith submit the annual report of the Superintendent of Schools.

Organization

In the Elementary School we have Grades 1 and 2 combined in one room and Grades 3 and 4 combined in another room. Grades 5 and 6 have been so large that it has been unwise to combine them. Grade 6, therefore, has been accommodated on the second floor and has been taught by the high school teachers. It is planned next year to place the sixth grade with the fifth in a single room. This arrangement will relieve the high school teachers of the sixth grade subjects, enabling them to devote their entire time to the junior and senior high school grades. It is becoming increasingly difficult for the high school teachers to handle work outside of their field especially since the extension of shop courses requires that the shop instructor shall devote more time to his work. General subjects which he has been handling will have to be taken over by the other teachers. It may also be possible to avoid some alteration of courses which is necessary now.

Industrial Curriculum

If one reads the school reports of past years he often comes across the expressed wish for the establishment of shop courses. We now have them. Few schools have better accommodations and equipment than are found in the Sunapee High School. We are now offering cabinet making for the freshman boys and mechanical drawing for the sophomores. It is planned to offer a course next year in "Practical Mechanics." This includes automobile mechanics, soldering, plumbing, woodworking, practical electricity, cold metal work, general repairs about the home and schools, finishing, sheet metal work, window repairing and concrete. The equipment for such a course is quite inexpensive. Ultimately we hope to add a course in automobile mechanics. This will require more machines and equipment. It is planned to add part of this equipment this year and the balance the following in order

to divide the expense. It will also be necessary to provide a large door into the basement so that automobiles may be driven into the shop.

Under Mr. Domina's direction the boys set up the machines which were purchased last year, rebuilt the tool room, and built a storage cabinet for partly finished projects. The boys have turned out some very creditable work. They have made several articles of furniture for the building, such as desks and cabinets, which otherwise would have had to be purchased at a much larger expense. The boys have also re-finished 125 desk tops on the second floor. Incidentally the boys have learned about the use of tools and different kinds of wood so that they will always be able to make articles of furniture for the house or do other odd jobs. The work in the shop has made some of the boys want to remain in school who otherwise might have left.

Mechanical drawing has been given this year as a regular course (5 double periods a week) with credit. The pupils have learned to make three-view and sectional drawings of all articles which they made. Blue-printing has also been taught. To provide facilities for making blue prints a small room has been built in one corner of the drawing room. This is provided with a sink, hot and cold water, and benches and shelves. It may also serve as an excellent room for work in photography. Except for the plumbing the construction has been done entirely by the boys.

Repairs

The hot water heater in the boiler room has been replaced by a larger and more efficient one. While the boilers are running there is an unlimited supply of hot water. This is much appreciated by the pupils when they take shower baths after basketball games. The last pupil now enjoys hot water as well as the first.

Teachers

Although our loss in teachers last summer was numerically small it was with sincere regret that we accepted the resignation of Miss Helen Fleming and Miss Dorothy Kennedy. They have given Sunapee pupils very efficient instruction for several years. The Primary room is now in charge of Miss Audrey Burnham, a graduate of the Sallem (Mass.) Teachers' College. The new teacher in the high school is Miss Alma Whitford, a graduate of Mt. Holyoke College.

Each year we have tried to have one special topic for consideration in teachers' meetings. This year we are considering character education. The pupils will probably forget many of the facts they study and lose some of the skills they acquire. They will not, however, so easily forget the ideals and attitudes which are developed during their school career. The kind of pupil we turn out is much more important than the subject content he may carry with him. The teachers in each town are meeting by themselves and are studying several professional books dealing with character education according to a prepared outline.

I wish again to express my appreciation of the constant cooperation of the School Board and Teachers.

Respectfully submitted,

ALFRED W. SMITH,

Superintendent of Schools.
